

Hyundai Forklift Attachments

Since 1985, Hyundai Heavy Industries continues to be supplying and making many forms of construction equipment together with: wheel loaders, skid steer loaders, excavators and forklifts. The heavy industry division operates a highly efficient product-supply system. This particular system is powered by zero-tolerance policy, excellent quality control and among the most superior automatic manufacturing lines.

Construction equipment has been released to emerging markets including South and Central America, Africa, Russia, and the Middle East. Intense sales are being initiated by a group of 477 distributors in 110 countries. Local Hyundai subsidiaries have been developed in the United States, India, China and Europe.

Inside Hyundai's Heavy Industries, the Construction Equipment Division works really hard to satisfy and surpass their customer's expectations through constructing efficient and reliable equipment and providing great after sales service. Customer Service is further maintained by a dedication to deliver parts fast in order to reduce the "downtime" of all their clients. Hyundai even welcomes buyer feedback so as to project their customers' requirements and market requirements onto product development, production and sales policies. Hyundai easily competes with the various top brands in the industry.

Hyundai Heavy Industries sincerely value all of their clients. The business is really committed to constantly enhance their assistance and merchandise even further. All of the company's managers and employees try to maintain this reality with the greatest commitment in their merchandise and assistance. One of their principal aims is to be able to help make their clients' venture even more prosperous.
