

Clark Forklift Attachments

Presently, there are no less than 350,000 Clark lift trucks performing globally, and more than 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized components built for 20 exclusive brands of forklifts and automated equipment. Your regional Clark Supplier is your complete source for availability of all your components needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a dominant market position.

Clark has selected the particularly economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This system was established to acknowledge the most effective method of production facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The new value engineering agenda combines progressive product development and provides superior client support and service within the industry.
